SUMMARY

A Full stack passionate Web Developer expert in Front-end & Back-end Development

SKILLS

- **Frontend:** Html, css, Javascript, React.js, Next.js
- **Backend:** Node.js, Express.js, MongoDB,
- **Deployment:** Vercel, GitHub
- **Python & C, C++ beginner level**

EDUCATION

- Current studies
LDRP-ITR CE | Gandhinagar *CPI sem-6 : 7.40*
- XII (GSHEB) | Sandipani Gurukul vidhyalaya
60.0% | 2023

ACADEMIC PROJECTS

- **DoubtIQ**
The Doubt-IQ project is an AI-powered educational platform built using the MERN stack (MongoDB, Express, React, Node.js) to provide instant answers to student queries. It leverages the Groq API for high-speed AI responses and features a React frontend, a Node.js/Express backend, and MongoDB for data management, deployed on Vercel.
<https://doubt-iq.vercel.app/>
- **Internship searching portel**
The frontend for the Smart India Hackathon (SIH) project utilizes React.js for a responsive, mobile-first user interface and includes dynamic components for visualizing real-time data. It features efficient global state management with Redux or Context API, integrates with RESTful APIs, and prioritizes UI/UX optimization for a user-centric design. More details can be found on the project's GitHub page.
